- 17 Skill Test

of Students in Classroom On Range: 11 # of Coaches in C/R: On Range: 2

1. Overall Condition of the Site: Exceeds Standards

A. Overall Comments:

This site provided students with a high level of positive learning features. The container was clean and well organized. There was a variety of newer helmets and some additional riding gear such as eye protection and gloves. A portable toilet was located nearby. It was clean and recently serviced. Student comfort amenities included water, shade canopy, chairs and snacks. All motorcycles are newer, in exceptional mechanical and cosmetic condition, clean, and well maintained. The training surface is in good condition. Painted markings clearly differentiated exercises and were in good condition. The range is free of obstacles and protected on all sides to block pedestrian or vehicular traffic.

*1 = Unacceptable; 2 & 3 = Needs Improvement; 4 & 5 = Meets Standards; 6 & 7 = Exceeds Standards

Classroom:

- 2. Classroom environment was conducive to learner-centered activities (large enough, comfortable, appropriate furniture, appropriate equipment). NA
- 3. Classroom instruction followed the 3-step sequence specified in the RiderCoach Guide. NA
- 4. There was a high level of student involvement in the classroom instruction. NA
- 5. The RiderCoach demonstrated appropriate communication skills in the classroom. NA
- 10. Required classroom materials were given to every student at the beginning of the classroom. NA

Overall:

- 6. There was a high level of mutual respect between the students and the RiderCoaches. (lack of intimidation, suitable volume & tone) 6
- 7. Objectives were accomplished within an appropriate amount of time. 5
- 8. The RiderCoaches appeared to have prepared sufficiently for the class. 5
- 9. Administrative aspects of the program are handled effectively (registration, student eligibility, liability forms). NA

11. Overall Assessment of the Classroom: NA
