Skill Test

of Students in Classroom

On Range:

of Coaches in C/R:

On Range:

1. Overall Condition of the Site:

Exceeds Standards

A. Overall Comments:

The range is located in a semi-industrial area that is not open to the public. Foot traffic and cars did not create any range management problems. The range surface was slurry-sealed and provided good traction for the exercises. The lines were clearly painted and visible. The containers were well organized with a variety of newer helmets, boots, and gloves for the student's use during the Basic Rider Course. (BRC) Additionally, there were plenty of cold drinks, as well as water and snacks for the students to use during their break times. A portable restroom was available for student use. The motorcycles were all very clean and well maintained. The overall appearance of the site shows the pro-active approach of the Site Administrator Loretta Kinnicutt.

*1 = Unacceptable; 2 & 3 = Needs Improvement; 4 & 5 = Meets Standards; 6 & 7 = Exceeds Standards

Classroom:

2. Classroom environment was conducive to learner-centered activities (large enough, comfortable, appropriate furniture, appropriate equipment).

NA

3. Classroom instruction followed the 3-step sequence specified in the RiderCoach Guide.

NA

4. There was a high level of student involvement in the classroom instruction.

NA

5. The RiderCoach demonstrated appropriate communication skills in the classroom.

NA

10. Required classroom materials were given to every student at the beginning of the classroom.

NA

11. Overall Assessment of the Classroom:

NA

Overall:

6. There was a high level of mutual respect between the students and the RiderCoaches. (lack of intimidation, suitable volume & tone)

5

7. Objectives were accomplished within an appropriate amount of time.

5

8. The RiderCoaches appeared to have prepared sufficiently for the class.

5

9. Administrative aspects of the program are handled effectively (registration, student eligibility, liability forms).
